Read about Paul's job. Choose the correct answer. (Přečti si článek a vyber správnou odpověď.)

My cousin Paul is a student in Manchester. He studies at the university from Monday to Friday, and on Saturdays he works in a restaurant. He's a good cook, and he usually helps to make the meals. He prepares the salads and peels and slices vegetables for soup. But sometimes, when there are a lot of people, he must also serve customers.

On his first day as a waiter, he made a lot of mistakes. He was lucky because my parents were his first customers. Dad remembers that Paul took their order. Dad asked for steak and chips, and Mum asked for pasta, but Paul brought fish and chips for Dad. They didn't say anything because they didn't want to cause trouble for Paul. Dad also asked for a bottle of wine and two glasses of water. Paul dropped the bottle when he tried to open it, and the wine went into Dad's fish and Mum's pasta. Paul didn't remember to bring the water at all. Paul's boss was angry, but Dad spoke to him, so Paul didn't lose his job. Paul's a good waiter now.
