

Pracovní list - řešení

Předmět: Anglický jazyk – 3. týden

Ročník: devátý (Radka Hanáková)

Opakování vzdělávacího celku: environment – životní prostředí

- naučit se slovíčka 6B
- učebnice strana 62 cvičení 1, 2 – přečti si další epizodu příběhu – Rosy is worried a písemně do sešitu English vypracuj cvičení 2 – pravda x nepravda x nebylo řečeno
- učebnice strana 63 – písemně do sešitu English vypracuj cvičení 4, 5, 6
- pracovní sešit strana 49 – cvičení 4, 5
- pracovní list – environment – životní prostředí

SAVING THE PLANET

Read the text carefully. Přečti si text pozorně.

Years ago there wasn't a problem with rubbish because things like plastic and disposable nappies hadn't been invented. There wasn't so much packaging on items you bought either. But now with everything so over packaged wrapped and disposable we are suffering the consequences of far too much waste. The trouble is not everything can be recycled or will rot away. You used to be able to get a refund on glass bottles when you took them back to the shop. Now they are either collected from your house by the council or you can take them to a bottle bank.

The fact that paper can be recycled and is easy to dispose is great, but remember paper is made from trees, which are important to the environment. The rainforests have been slowly disappearing for a while now. We need them not just because it helps with the climate. They are important as like all plants they give us oxygen. They are also a home to many animals who rely on them for their survival.

The best waste is organic, dead leaves; carrot tops, onion skins and so on all rot down and make fertile soil. This in turn will help the plants and vegetables giving them much needed food. So if you are able to have a compost heap in your garden you'll be helping the environment and your garden will love you for it.

Acid rain is another serious problem it is damaging to plants and is caused by pollutants such as sulphur dioxide and nitrogen oxides. These come from the burning of coal, oil and gas.

Dropping litter is not just a lazy thing to do it makes work for other people, is bad for the environment and looks ugly. So think before you drop litter either bin it or keep it and then bin it.

When rivers and seas are polluted by waste we are not only stealing **their** beauty but we're spoiling it for ourselves too. Our health can also suffer. Sadly accidents do occur; oil slicks sometimes happen and wreck the environment. Animals tend to suffer the most from **these** incidents. **We** should really have in place something that will prevent so much destruction, rather than just waiting for it to happen, then trying to clean up the damage.

Nuclear waste has been the cause of controversy over the years. Radioactive material leaking out would be very serious indeed, it can cause real harm. This is why it is the most worrying.

Although we are trying to stop the hole in the ozone layer getting any bigger, nuclear waste is still a serious problem. The ozone layer protects us from harmful ultra - violet rays. Its hole has been caused by chlorofluorocarbons (cfc's) a chemical that was found in some products. Refrigerators used to contain **them**. So do we care enough about the earth we have inherited and our passing onto future generations? Or is it now all too late to do anything? Each one of us can make a difference and each and every one of us is responsible to the environment. **It** takes care of us; we should take care of it.

Say who or what the following words refer to.

1. them _____ glass bottles _____
2. they _____ glass bottles _____
3. them _____ rainforests _____
4. us _____ people _____
5. who _____ animals _____
6. them _____ plants and vegetables _____
7. these _____ sulphur dioxide and nitrogen oxides _____
8. it _____ dropping litter _____
9. their _____ rivers and seas _____
10. these _____ oil slicks _____
11. we _____ people _____
12. them _____ chlorofluorocarbons _____
13. it _____ environmnt _____

Go through the text and enumerate some of the environmental problems mentioned in it. (vlastní odpovědi)

- _____
- _____
- _____
- _____
- _____
- _____
- _____
- _____

Say if the following statements are True or False. Correct the false ones.

1. Some years ago diapers weren't used. _____ false _____
2. Nowadays products are over packaged. _____ true _____
3. Some products are difficult to destroy. _____ true _____
4. Both animals and humans need trees to survive. _____ true _____
5. Acid rain is caused by organic waste. _____ false _____
6. Ozone layer depletion and nuclear waste are two most serious problems. _____ true _____
7. It's useless for us to try and make a healthier environment. _____ false _____

Protecting the environment is our own responsibility. What can you do to make our planet a better place?
